BEFORE INVESTING YOU SHOULD CAREFULLY CONSIDER THE FUND'S INVESTMENT OBJECTIVES, RISKS, CHARGES AND EXPENSES. THIS AND OTHER INFORMATION IS FOUND IN THE PROSPECTUS AVAILABLE BY CALLING TOLL-FREE (877)828-8210. PLEASE READ THE PROSPECTUS CAREFULLY BEFORE YOU INVEST.

Investments are subject to risk, including the possible loss of principal. As interest rates rise, the value of debt securities decrease; whereas prepayment risk tends to occur during periods of declining interest rates. Recent turbulence in the financial markets and reduced liquidity in credit and fixed-income market may have an adverse effect on the Fund. Mortgage-backed securities are subject to prepayment risk, when the Fund may have to reinvest this money at lower prevailing interest rates, as well as extension risk. The value of mortgage-backed securities and asset-backed securities can be very volatile in response to changes in interest rates. Many of the risks of investing in commercial mortgage-backed securities reflect the risks of investing in the real estate securing the underlying mortgage loans. Accordingly, the Fund may not be suitable for all investors.

The Barclays Capital 1-3 Year Government Index includes Treasury and Agency securities issued by the U.S. Government with a maturity from 1 up to (but not including) 3 years. This unmanaged Index contains only dollar-denominated, investment grade issues with at least \$250 million par outstanding. One cannot invest directly in an index.
